Introduction to Free Software

Introduction to LibreOffice

- **BASIC**: software functions are pre-determined or commonly used, and techniques for input, manipulation and output are straightforward or routine
  - Writer Basic
  - Calc Basic
  - Impress Basic
  - Draw Basic
  - Base Basic

- **INTERMEDIATE**: tools and techniques are described as "intermediate" because the functions are at times non-routine or unfamiliar
  - Writer Intern.
  - Calc Intern.

- **ADVANCED**: tools and techniques are described as "advanced" because some functions are complex and may involve looking for a tool to solve a problem
  - Writer Advan.
  - Calc Advan.
  - Impress Advan.
  - Draw Advan.
  - Base Advan.

<tbody>
<tr>
<td>Calibri</td>
<td>regular, italic, bold, bold italic</td>
</tr>
<tr>
<td>Cambria</td>
<td>regular, italic, bold, bold italic</td>
</tr>
<tr>
<td>Candara</td>
<td>regular, italic, bold, bold italic</td>
</tr>
<tr>
<td>Consolas</td>
<td>reg, it, bd, bd it</td>
</tr>
<tr>
<td>Constantia</td>
<td>regular, italic, bold, bold it</td>
</tr>
<tr>
<td>Corbel</td>
<td>regular, italic, bold, bold italic</td>
</tr>
<tr>
<td>Cariadings</td>
<td>THNDFGEGEBEHFEBFK</td>
</tr>
</tbody>
</table>

LibreOffice Aarhus 2015 Conference Presentation
Some Problems

- Conversion DOC and XLS file in ODF format
- Interoperation with other PA
- Macros and templates
Deployment Technique

Testing

Run

Deploy or Ops

execute

1

Download package

Shell Scripts

Sql insert

Scheme By Marina Latini
