Windows 7 & 10
Different Toolbar Layouts

Default Toolbar

Groupedbar Full

Groupedbar Compact

Tabbed compact
Different Toolbar Layouts

- Default Toolbar Layout
  - High configurable
  - Well known from users
  - Oldscool vs. compact

- Sidebar Layout
  - Use of widescreens
  - Big improvement in past and future
Different Toolbar Layouts

- **Groupedbar Full**
  - Simple by default, powerful when needed
  - Main features with one click available
  - Simple = one click, Advanced two clicks
  - Grouped/Structured Layout
  - No useless items (labels are drop down menus)
  - All main features in groups on the main page mean that you need screen wide
Different Toolbar Layouts

- Groupedbar Compact
  - Simple by default, powerful when needed
  - Main features with one click available
  - Simple = one click, Advanced two clicks
  - Grouped/Structured Layout
  - No useless items (labels are drop down menus)
  - All main features in groups on the main page mean that you need screen wide
  - Icon labels have no space
